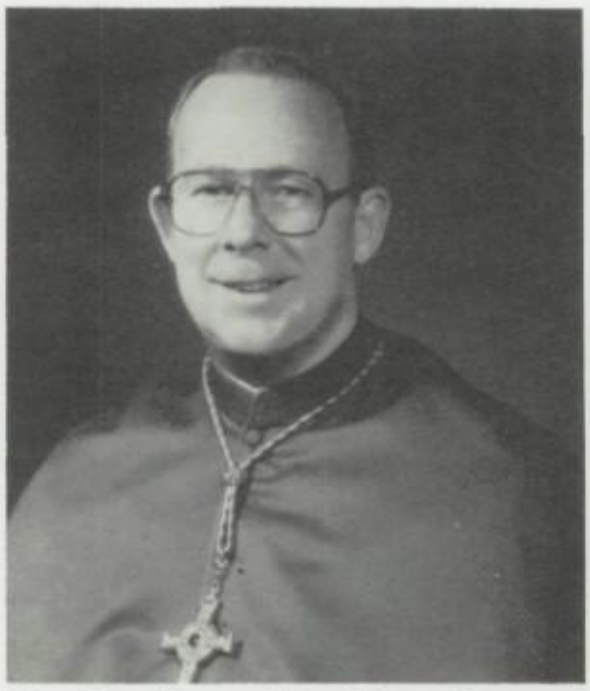
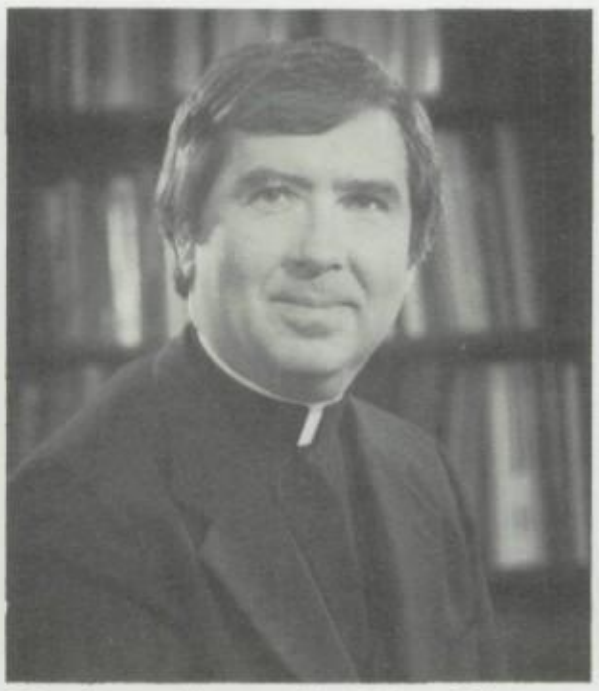
FACULTY



His Excellency, The Most Reverend John Reiss, Bishop of Trenton



Monsignor Thomas Luebking, Diocesan Superintendent of Schools

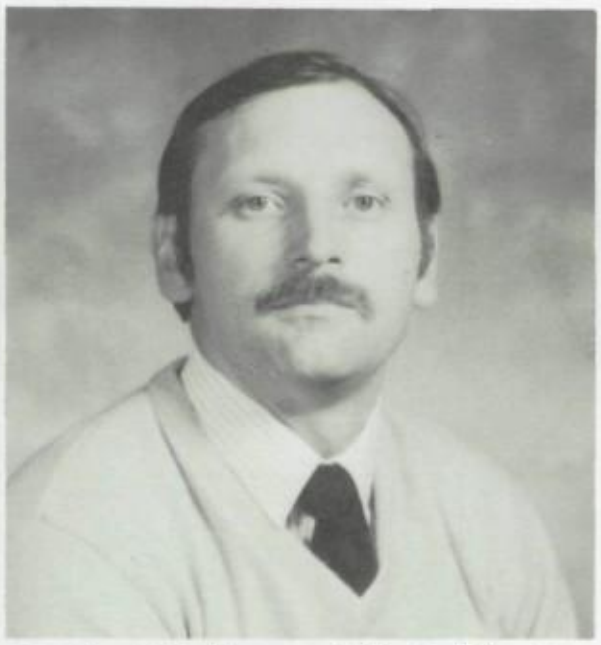
Monsignor Michael P. McCorristin, Founder and Director

Sister Marguerite O'Beirne, Principal

Mr. Richard Carson, Associate Principal

Miss Lois Yencha, Assistant Principal

Sister Frances Cecilia, Coordinator of Financial Affairs



Mr. Scott Bollwage, Athletic Director

One of Mr. Carson's more enjoyable duties here at McCorristin High School is the crowning of the homecoming queen. This year the senior class elected Miss Diane Morales as their queen. She was escorted by her father, Mr. Eddie Morales.

CARSON/BUSH IN '88?

Richard J. Carson, teacher and Associate Principal of McCorristin High School, assumed the office of Mayor of Bordentown Township on January 1, 1985.

Born in Hamilton Township, Mr. Carson received his basic education at St. Anthony Grammar School and Notre Dame High School. He attended several institutions of higher education, including the University of Dayton, Ohio, and Rider College, where he received his Masters Degree in Education and Administration, and Temple University.

Mr. Carson can often be seen busily working in the classroom and in his office or chatting with fellow faculty members and students. A member of the McCorristin family since 1967, we have all come to know him well and appreciate the complex and numerous tasks he must perform, in both his professional and personal life, to keep our school an efficient and effective educational environment.

A Republican, Mr. Carson never had any inclination to run for office. In fact, he was approached and encouraged twice to enter the world of politics but declined both times. On the third approach, however, he accepted and acquired a seat on the township committee.

A decade of orchestrating business arrangements and guiding approximately one thousand students here at McCorristin has been invaluable experience for doing the same with Bordentown's population of 7,800 and fulfilling all the administrative duties his office requires.

Mr. Carson may always remain fully confident that wherever public life may take him, we at McCorristin are all behind him.

John Castaldo
"Coach of the Year"

Varsity Soccer Coach John Castaldo has proven his sportsmanship both on and off the field. Although the team's record lacks a significant number of wins, they present themselves as a challenge to conquer. Mr. Castaldo is an exemplary sportsman. Recently named "Coach of the Year", Mr. Castaldo has shown his gentleman like manner in game situations.

Coach Castaldo, a graduate of Notre Dame High School, participated in basketball and soccer. At Trenton State College he persued a Masters degree and a Bachelor's degree in Physical Education and Administration while he still participated in the soccer and basketball sports programs.

Mr. Castaldo has spent five years coaching at Notre Dame, two years at Trenton State College and then we were fortunate to attain him. Here he has coached both soccer and basketball instilling in his players an attitude of improvement and teamwork. Although winning is not the most important thing, it is fun and Coach Castaldo will readily admit it. In past years the team has had a large turnout in pre-season training but only the right attitude is acceptable. Teamwork comes into play at many times and Coach Castaldo has had the timely help of J.V. Coach Zimmer.

Coach is looking forward to many returning players and helping to direct them "down the right path." He has expressed great honor in selection as "coach of the year" and shares it with all the players with whom he worked. The players themselves are proud and were elated with the new-found success of the boys' soccer program.

All of McCorristin High School is proud of Coach Castaldo and would like to express their happiness. Congratulations Mr. Castaldo!

And You Don't Have To Travel To Chile Or Cuba To Learn It

Presently at McCorristin, we have the privilege of having two native speakers in our language department, Spanish I and II teacher, Mrs. Hanagan, who is a native of Santiago, Chile, and Mrs. Cecilia Maciá, who is originally from LaHavana, Cuba. Mrs. Hanagan and Mrs. Maciá enjoy teaching American students the Spanish language.

The two Spanish teachers, since raised and educated in their native country, can compare their education with the education of our country and find some differences which influence each culture. For example, Mrs. Hanagan recognizes the fact that unlike the United States, art and music along with two languages are mandatory during high school. Mrs. Maciá, however, was educated in Cuba where she attended American schools which were strictly bilingual since kindergarten up to third grade. The difference is that no competive sports were played among schools.

Native teachers of language may have advantages over other language teachers. Mrs. Hanagan and Mrs. Maciá agree that the first advantage for native speakers is that correct pronunciation is heard. Secondly, if a question about culture is asked during class, an answer is always available becase they lived the Spanish culture, not simply learned it.

The only disadvantage would be if the teacher were unable to communicate properly in English. Fortunately, however, that is not the case for either of our teachers, and their enthusiasm for the Spanish language will continue to be emphasized throughout the year.

THE ROAD NOT TAKEN

Two roads diverged in a yellow wood,
And sorry I could not travel both
And be one traveler, long I stood
And looked down one as far as I could
To where it bent in the undergrowth;

Then took the other, as just as fair,
And having perhaps the better claim,
Because it was grassy and wanted wear;
Though as for that the passing there
Had worn them really about the same,

And both that morning equally lay
In leaves no step had trodden black.
Oh, I kept the first for another day!
Yet knowing how way leads on to way,
I doubted if I should ever come back.

I shall be telling this with a sigh
Somewhere ages and ages hence:
Two roads diverged in a wood, and I
I took the one less traveled by,
And that has made all the difference.

OLYMPIC GOLD WINNER

McCorristin High School fans had the privilege of meeting the Olympic Gold Medalist of the U.S. Women's Basketball Team, Ann Donovan, who joined a various number of well known girls basketball players from all over the state, including the former McCorristin basketball star, Kate Larkin, in the "Game of Games" against some of the most famous names in Trenton's High Schools' Boy's Basketball history.

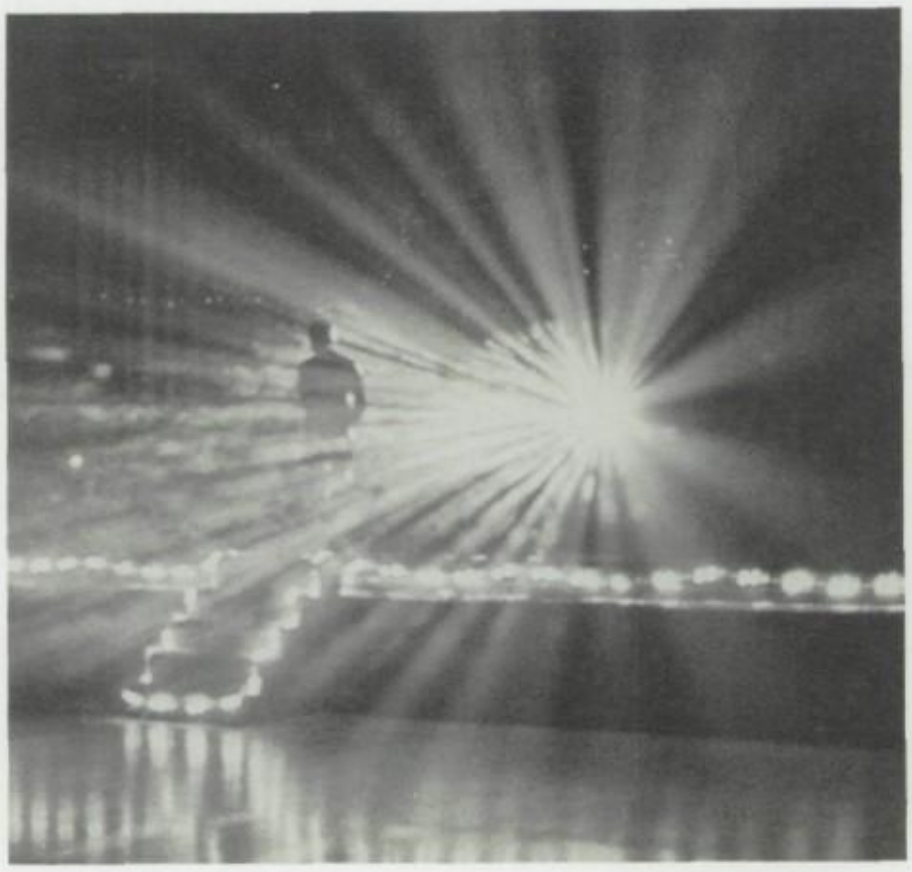
Why did so many people fill McCorrisstin High's gym? The answer, however, is that each was concerned and supportive of the McCorristin student, Renee Keister, who had been previously injured three months prior to the Renee Keister Benefit Game.

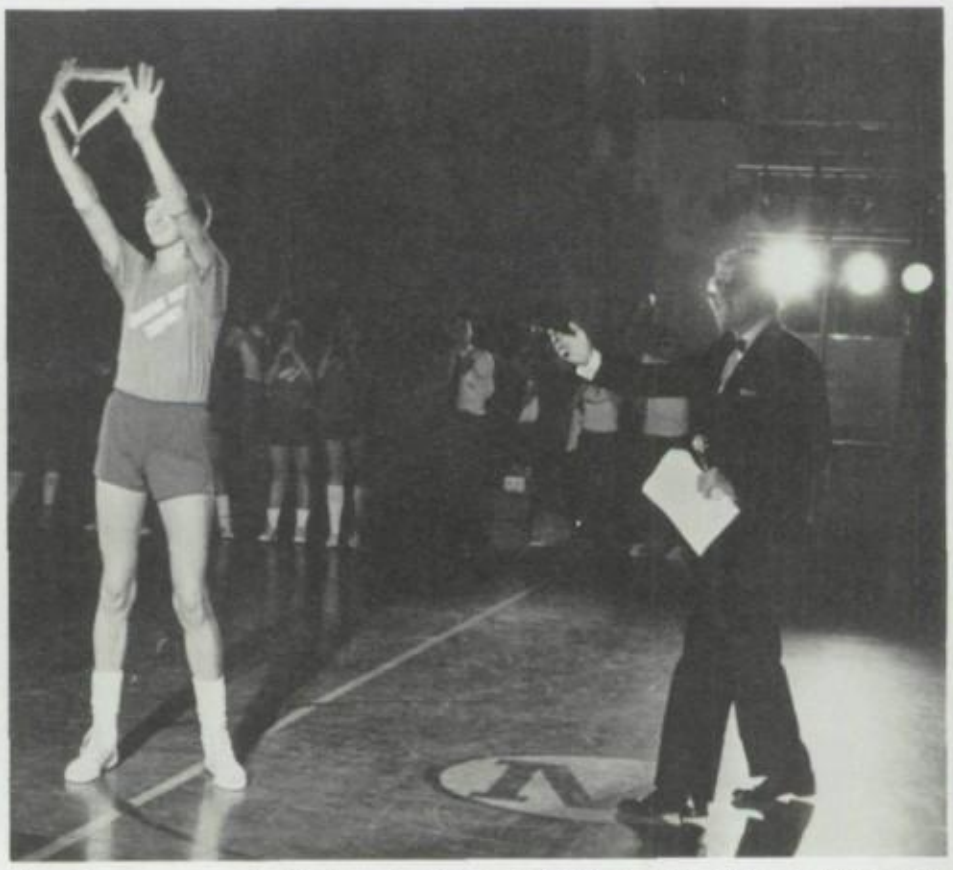
This event, organized by both Sister Marguerite O'Beirne and Mr. Danny Dwyer, featured the "All Star" game, along with a laser show and performances by the Talk of the Town dancers and McCorristin High School Cheerleaders.

The game seemed to surprise both the men and women teams as neither had an easy time achieving a victory, therefore, leaving the final score at a 63-63 tie.

The game, thanks to the support of McCorristin's students, faculty, fans, and all those who attended, proved to be successful as it raised a total of $10,500 for the Renee Keister Benefit Fund.

Olympic gold-medal winner, Ann Donavan poses with Mr. Carson and Sister Marguerite before the big game.





Ann Donavan proudly displays her Olympic Gold Medal as Mayor of Hamilton Township J. Rafferty looks on.

During the 1984-85 year McCorristin High School witnessed for the very first time the addition of wrestling to the athletic program. Sprouting from the insistent demands of the male students, Father Stan, senior religion teacher and Mr. Tom Marks, freshmen algebra teacher, decided to establish a wrestling team at the school. Mr. Marks, a black belt in karate resided as coach with the assistance of John Petrillo, Wes Kowalik, Bennett.

Wrestling will allow the individuals who have studied martial arts to exhibit their developed talents. Instead of running toward a goal, the wrestler will battle with his rival on a one to one basis. Using skill not muscle, the individual will concentrate on overpowering his opponent.

Bordentown Township Proclaims Day
To Honor McCorristin Student

On Wednesday, September 26, 1984, the Township of Bordentown proclaimed this day to be known as "ROBERT PETRUSKA — EAGLE SCOUT DAY".

Robert, a sophomore here at McCorristin High School, has been involved in the programs of the Boy Scouts of America since 1977 when he joined the Cub Scouts. He then, in 1979, became a Weebelo Scout and is now currently involved with the Boy Scouts, Troop #87, Yardville, NJ.

Only two percent of all Boy Scouts reach the rank of Eagle Scout, which is the highest achievement in scouting. He is one of the few recipients to reach this rank at such a young age.

There are many qualifications that have to be met to become an Eagle Scout, such as earning twenty one merit badges and a ninty hour service project, in which Robert worked within his church community. With this achievement, he gains a good leadership position with his scouting organization and is now the senior patrol leader and top youth leader of his troop.

Robert likes scouting because it teaches individuality, survival skills, and experience with others. He plans to continue his enrollment in scouting as both a scout and as a leader.

Three Cheers for Tammy Willever

When it comes to BMX racing, Tammy Willever has held her position as number one in New Jersey and number four in the nation for the past five years.

Recently Tammy raced the Grand National in Louisville, Kentucky and took third in the main race, at which time she was awarded a four foot clock, going on to Hashville, North Carolina, Tammy took all seconds. After North Carolina she flew to Tulsa, Oklahoma, where she took first place in her motto. Tammy, however, fell in her semi-final race showing the agony of defeat as this is true with all competitive athletes.

Only a week later Tammy went on to the Iron Man Classic Race where she took all first places.

Tammy became interested in bike racing after watching her sister Susan, who has recently retired, and her two brothers Cliff and Tadd.

In fact, the whole family is involved in the sport. Each summer the Willever's pack up and travel together to different states cheering for one another. Not only do they travel away together, but they also go to races in New Jersey every weekend.

During Tammy's five years in bike racing she has won over 200 trophies. She has also won jackets, certificates, and awards.

She participated in a Christmas Tournament held in Alabama where she finished with all first.

Tammy's goal for "85" is to fly to the World Championship and hopefully her best will be rewarded.

Rachel Evans Mixes Academics with the Arts

Rachel Evans, who previously had taken academic courses, now attends Mercer County School of the Arts. She has taken an important step, having been exposed to the arts all of her life. Her mother is a singer and her father is a playwright. Attending a school of the arts has been her great desire since junior high. Mercer County School of the Arts presented the opportunity.

Rachel, however, has not forgotten the academic side. She still takes as many academic courses as her schedule will allow. Rachel is not sure if she wants acting as a fulltime career. Instead, she would like to act on a professional level as a sideline. She wants to attend college, major in academics, and get a degree so that she might teach. She does plan to continue taking courses in drama however. "The majority of students from Mercer County School of the Arts do go on to college." "Unfortunately" Rachel added "this is not a commonly known fact."

Rachel enjoys Mercer County School of the Arts because of the friendly atmosphere there. She went on to say that she has learned a lot from the performing arts and it has a lot to offer in helping students develop their talents.

Renee Keister: A True Champion

Renee Keister is an outstanding junior at McCorristin High School. Even as a freshman, Renee showed her excellence in basketball and quickly became a valuable asset to the Lady Mikes. Renee portrays the true meaning of the word "superstar." Everyone knows that Renee possesses a certain quality. It's hard to explain that quality completely, but determination, a strong will, and an attitude of friendship to all is definitely part of it.

Renee has never been one to give up no matter how difficult things appear. Even when it seems all the odds are against her, she fights back even harder and that is definitely her attitude now.

Renee has suffered a terrible tragedy. Renee is a very brave girl, and she's trying to keep her spirit and courage high. She always seems to have a smile handy to put everyone at ease, and though the tears may glisten in her eyes, there's also that determination that says she's never giving up.

Renee has a long, hard road ahead of her, but no one should have to travel that road alone. She has reached a point in her life where she needs more support now than she ever did on that basketball court.

The McCorristin High School chapel, located in the central wing of the building, provides students and faculty with a quiet place for worship. It is the heart of our Christian community. On the opening day of school, the faculty and staff gather together to celebrate the sacrament of the Eucharist. The chapel is also the scene for daily class masses, the sacrament of Reconciliation, and prayer services.
